

KIDSCIENCE[®]

ADVENTURES

AFTER SCHOOL
SCIENCE FUN

Proctor Terrace School

Join us for a fun filled science adventure!

Kidscience is dedicated to making science fun for kids of all ages.

Using common materials, we will explore and perform a variety of amazing hands-on experiments. Session lasts six weeks—one hour each class.

Each class will be packed with science fun. Your child will experience science demonstrations, hands-on time with the experiments and make a take home science project each week.

Performing safe and fun science activities creates excitement and enthusiasm for learning as well as develops critical thinking skills.

Explore & Discover: All NEW lessons

- Science with magnets, explore the power!
- Bottle Science, amazing science in a bottle.
- Make a science toy
- *Make a mini rocket!*
- *Much more!*

Instructor: Mark Bradski holds a credential in elementary education and is an expert in hands-on science fun. His goal for students is to instill a love of learning and the ability to solve problems with a scientific approach. He has been teaching hands-on science classes and camps for 16 years.
