

Join the Art Education Team!

Proctor Terrace is starting the
Art Docent Program.

We have been testing these wonderful courses in the
classroom and now it's ready to go!

We've seen lots of enthusiasm from our
students and teachers.

With your help, Proctor students will learn art history
and create their own artwork as part of
their regular school year.

You don't need to have an art or teaching background
to help and commitment is only five hours a month.

Parents, grandparents, family
and friends are welcome.

Sign up now for the 2014-2015 School Year.

*Benefits of Art Education: Many studies find that making art builds self-esteem
and boosts academic and social achievement.*
